About us & timeline

greenset is the global leader in designing, manufacturing, and installing premium tennis, padel, pickleball, and multi-sport courts.

We combine sustainable practices with innovative craftsmanship to deliver high-performance, cutting-edge courts that set the standard for excellence in design and quality.

1970

greenset is founded. Becomes a pioneer in advanced resins and tennis court technologies.

Acquired by former ATP professional Javier Sánchez Vicario, starting a period of growth and enhanced expertise.

2000

2005

Key inflection point to become over the next decade the global leader in court surfaces, chosen for over 600 major tournaments including the ATP, WTA, ITF, and prestigious events like the Davis Cup and Olympic Games.

The beginning of Padel Courts Deluxe journey and our passion for padel. The first courts saw the light, and our commitment to quality took shape.

2010

greenset.

2019

Appointed official court supplier for Tennis Australia, including the Australian Open, ensuring consistent surface quality across the best tournaments for the best players.

greenset merges with Padel Courts Deluxe, a leader in padel courts, to create greenset Padel, strengthening their position in both tennis and padel court markets.

2022

**Javier Sánchez Vicario
& Fernando Cánovas**
Co-CEO greenset

2024

We implemented cutting-edge robotic technology, revolutionizing court production and enhancing manufacturing efficiency.

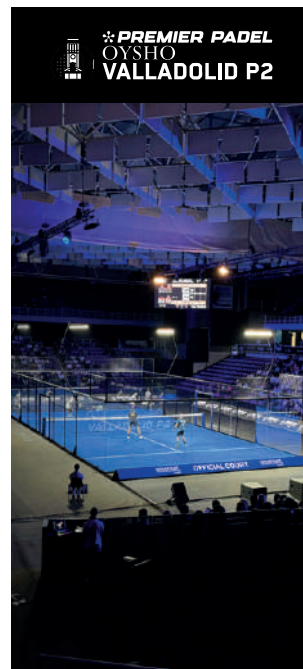

Present

Installed over 60,000 courts in more than 50 countries, serving top academies like Rafa Nadal Academy, national federations, and leading venues worldwide.

02 Tournaments & special events

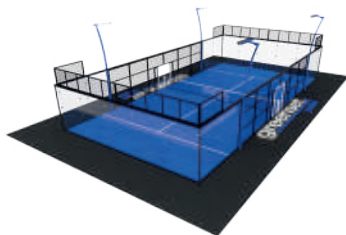

With over 50 years of experience our team of experts, client services, and state-of-the-art factories allowed us to build over 60,000 courts for the most reputable tournaments, academies and legendary players worldwide.

From the Australian Open and the Olympics to the Rafa Nadal Academy and Premiere Padel Tournaments, our surfaces are where champions train and compete. Our commitment to excellence and innovation ensures that every court we create not only meets but exceeds the expectations of elite athletes and prestigious institutions.

03 Padel courts

Innovative technologies and dedicated craftsmanship in padel courts construction matters. We bring you more than just courts. We deliver unforgettable moments of play, passion, and excellence.

With over a decade of experience in padel courts construction, we create padel courts that embody ambition and quality. Step into our padel courts worldwide and experience greatness!

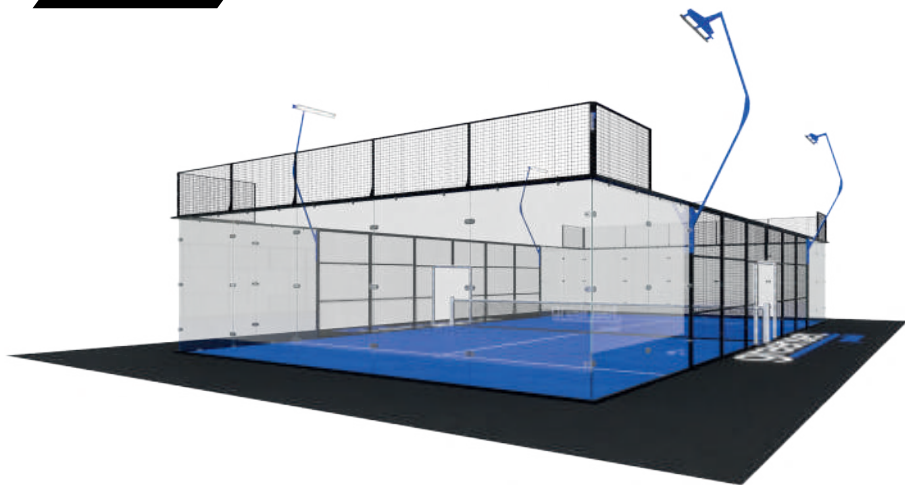

CARBON

TECHNICAL INFO

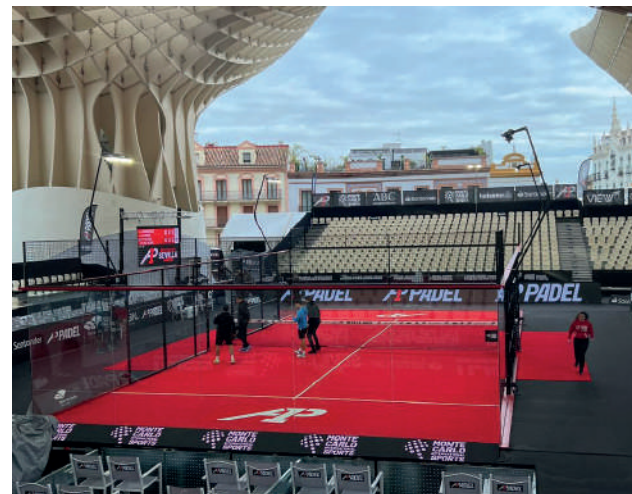

- 4 pillars of carbon fiber in the corners that form the support of the upper ring and the base of the lantern
- Galvanized steel profile, ring & mesh
- Polycarbonate fixing brackets for low maintenance & increased resistance
- All fittings, lugs, screws, nuts & bolts made of stainless steel
- 8 x 200W LED floodlights for perfect illumination
- 12mm tempered glass secured with flush screws and washer & locknut for blocking and increased protection
- Net post with stainless steel tensor and paddle court net
- 12mm artificial turf

How we
do it?

INNOVATION AND EFFICIENCY

We prioritize safety and compliance, using high-quality and certified materials for construction. We adhere for regulations, ensuring reliable structures and prohibiting low-quality steel use.

SUSTAINABILITY COMMITMENT

We prioritize environmental responsibility by integrating solar panels into our facilities and using certified, eco-friendly materials. This commitment not only ensures the highest quality but also promotes sustainability throughout our operations.

GLOBAL REACH

Our expansion strategy has successfully positioned us in key markets across Europe, America, and the Middle East, proving our ability to adapt to diverse markets while maintaining unmatched quality and service.

OFFICE AND STAFF

585 m² (6,294 sq ft)

MANUFACTURING

4020 m² (43,281 sq ft)

ROBOTICS

1750 m² (18,836 sq ft)

PAINTING

1550 m² (16,684 sq ft)

WAREHOUSE

4825 m² (51,961 sq ft)

05 Where are we?

Across more than 50 countries worldwide, our courts have left a lasting impression, revolutionizing the padel experience.

From vibrant cities to serene countryside settings, our presence spans continents, bringing innovation and excellence to diverse communities.

Frequently asked questions

Our team is here to address all your inquiries. Here, we provide answers to your most frequently asked questions, but feel free to reach out to us at info@greenset.es for more information!

1

How do we treat the structure we use on our courts?

The structure of our courts is made of galvanized steel to prevent corrosion. We use the same material regardless of whether the court is indoor or outdoor. We have certification in the welding of the courts and, in addition, we carry out the painting (powder coating) of the structure in our own facilities.

2

What are the dimensions of a padel court?

A standard paddle court measures 20 by 10 meters, with variations based on regulations and guidelines.

3

Do you ship globally?

Yes, we offer worldwide shipping services for your padel court needs. Regardless of your location, we ensure prompt and reliable delivery of our products.

4

Do you assemble the padel courts?

Yes, we provide worldwide shipping and offer professional assembly services for our padel courts. Our specialized team ensures efficient and precise installation.

5

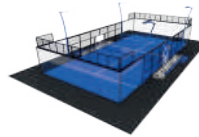

What steps should I take to build or install a padel court?

1. Choose the location.
2. Appoint a specialized technician to assess feasibility.
3. Obtain necessary permits from the municipality.
4. Assign a qualified topographer, architect, or engineer to oversee the project entirely.

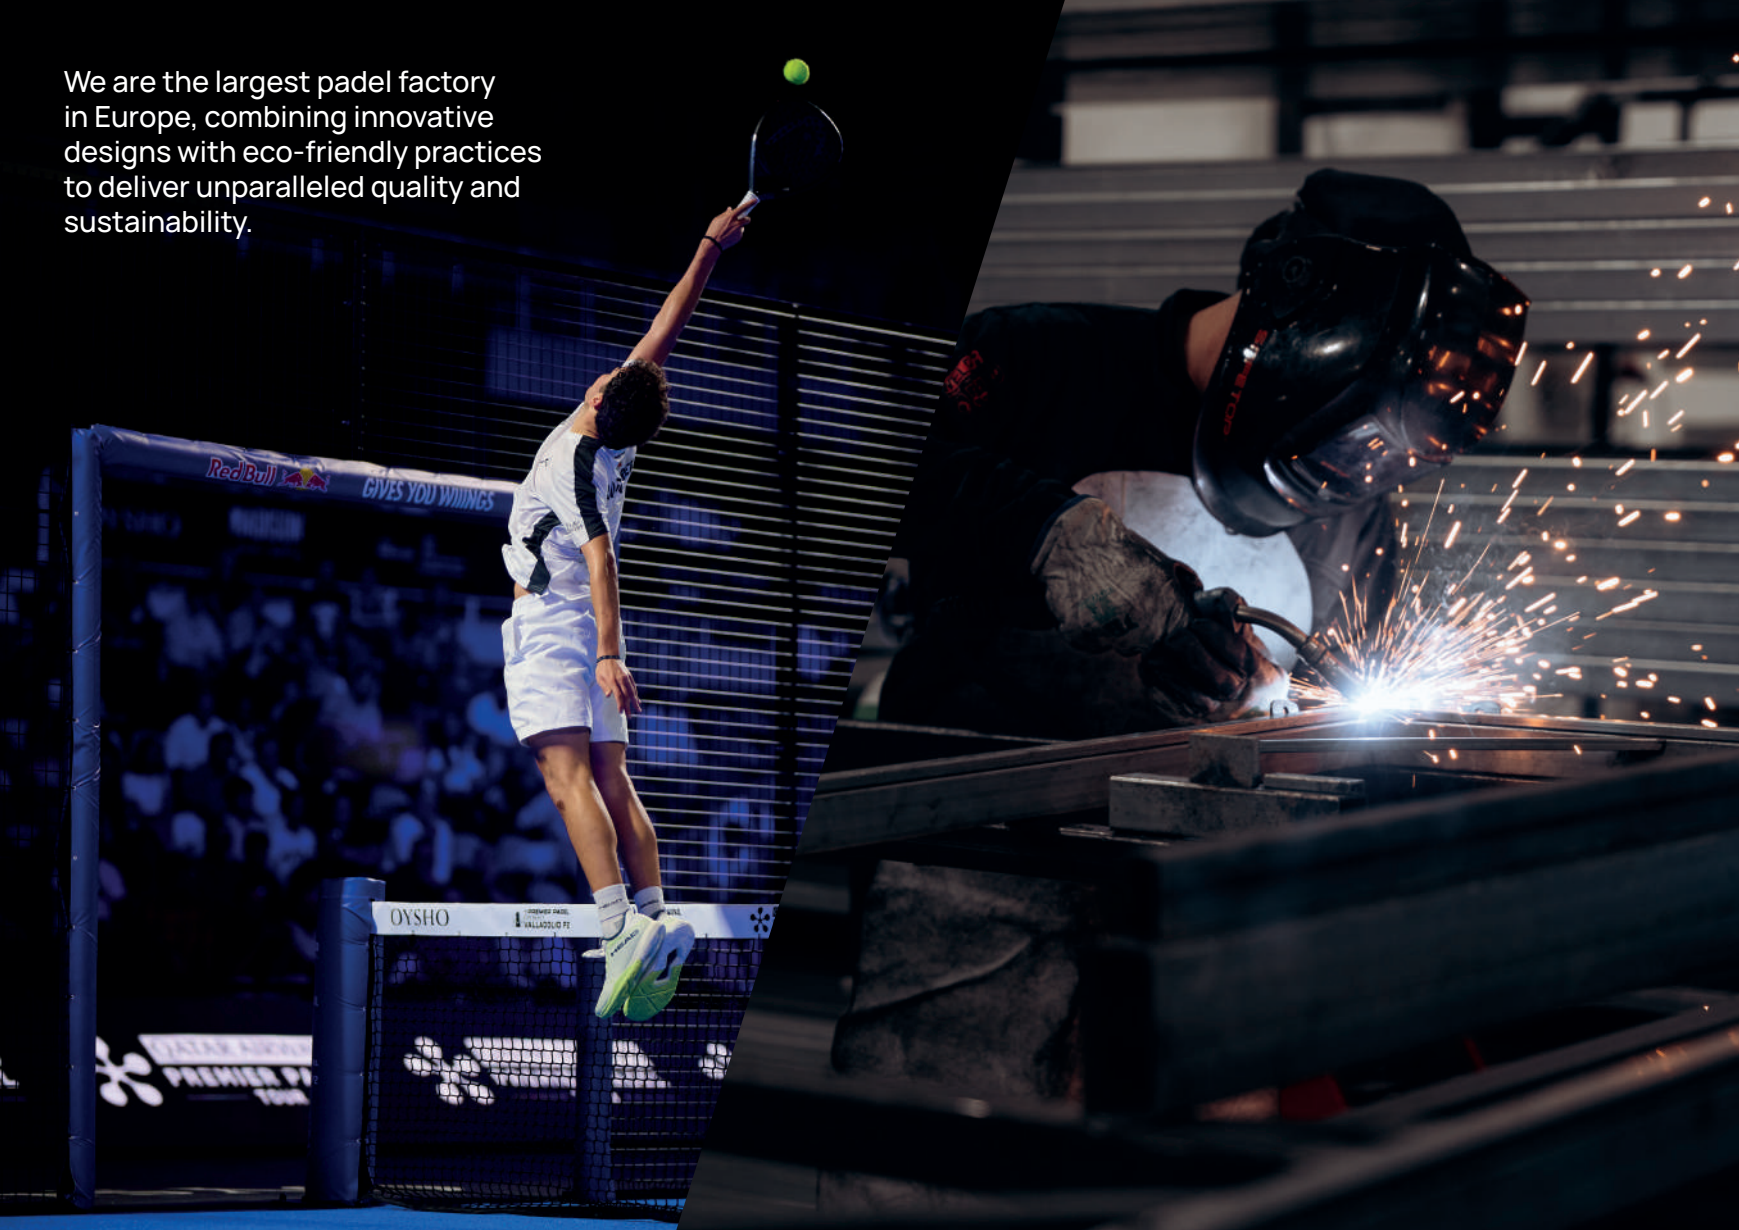

6

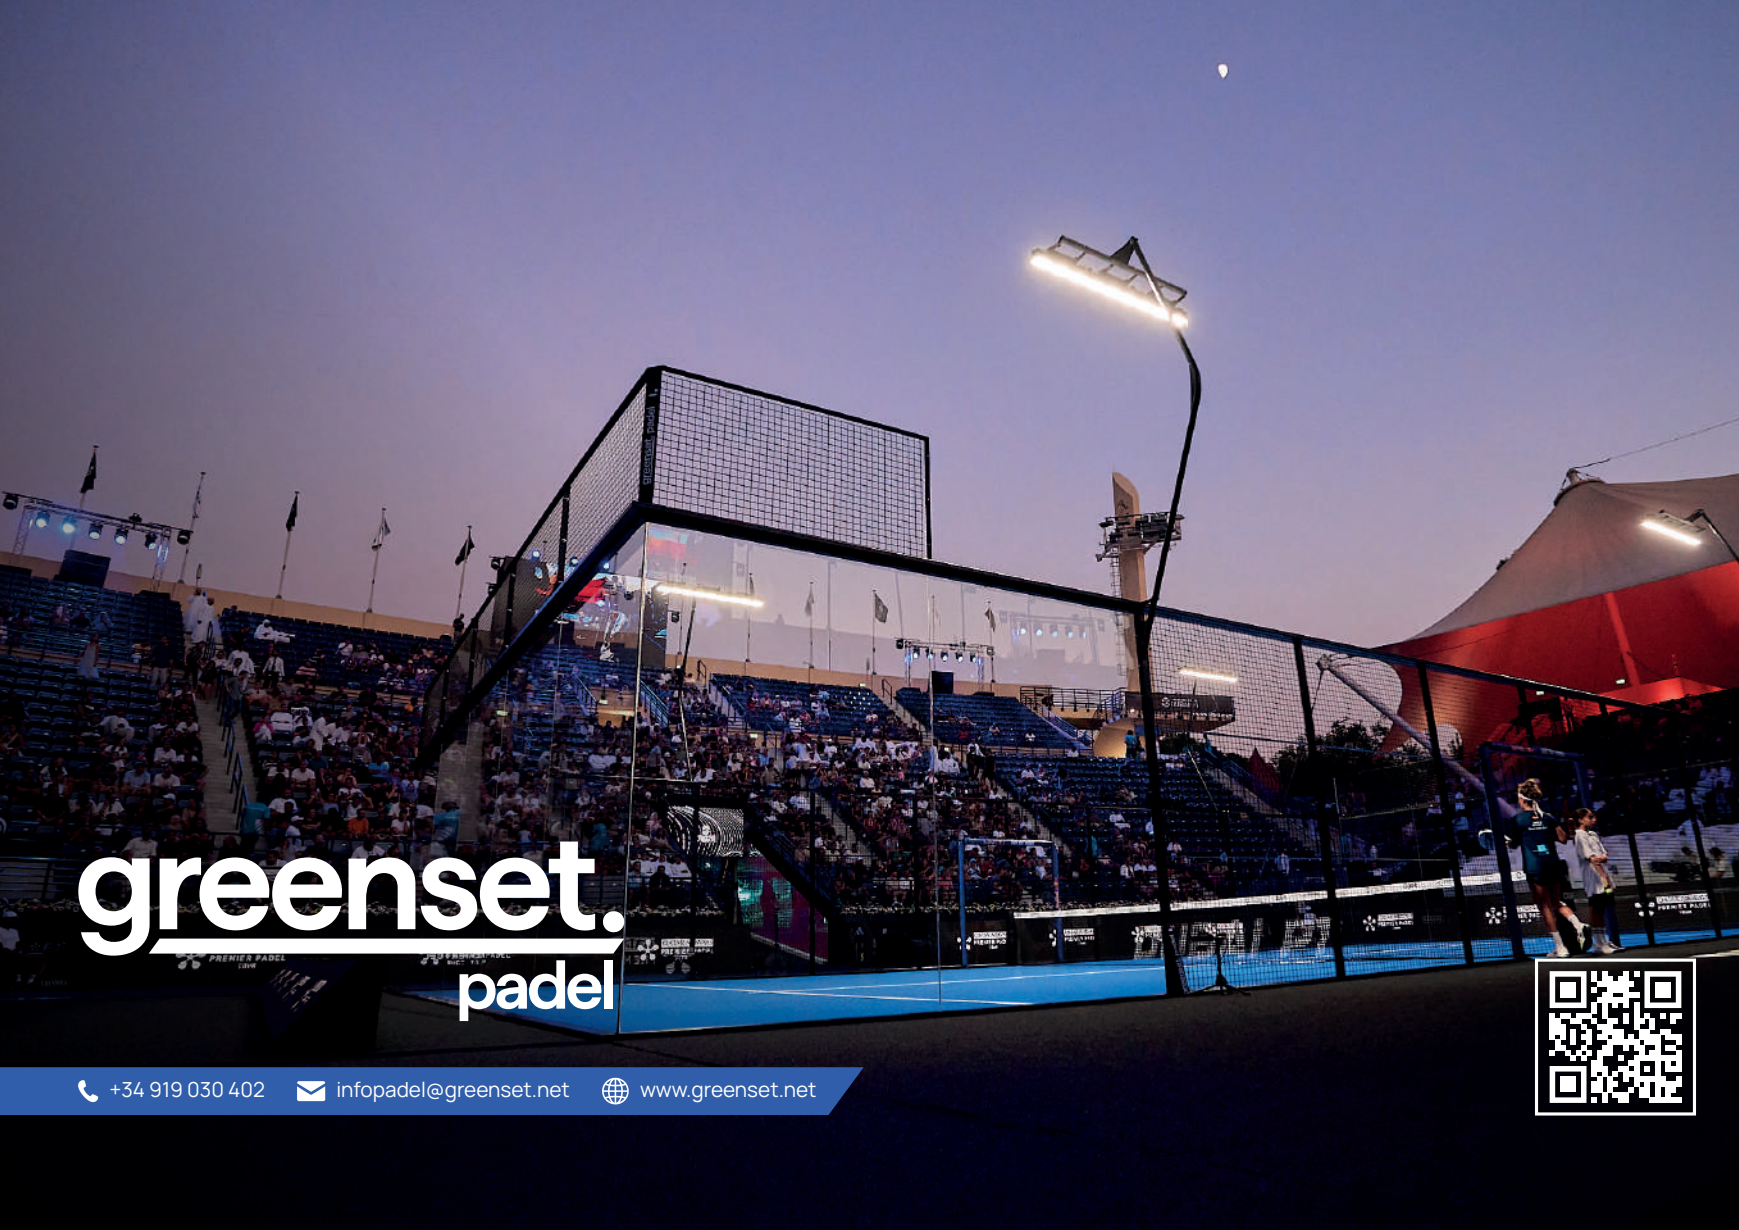

How long does it take to install a padel court?

Approximately 3 days: one for the structure, one for the glass panels, and one for the turf. However, the exact time may also depend on weather conditions and access to the installation site.
