About us & timeline

greenset is the global leader in designing, manufacturing, and installing premium tennis, padel, pickleball, and multi-sport courts.

We combine sustainable practices with innovative craftsmanship to deliver high-performance, cutting-edge courts that set the standard for excellence in design and quality.

1970

greenset is founded. Becomes a pioneer in advanced resins and tennis court technologies.

Acquired by former ATP professional Javier Sánchez Vicario, starting a period of growth and enhanced expertise.

2000

2005

Key inflection point to become over the next decade the global leader in court surfaces, chosen for over 600 major tournaments including the ATP, WTA, ITF, and prestigious events like the Davis Cup and Olympic Games.

The beginning of Padel Courts Deluxe journey and our passion for padel. The first courts saw the light, and our commitment to quality took shape.

2010

greenset.

2019

Appointed official court supplier for Tennis Australia, including the Australian Open, ensuring consistent surface quality across the best tournaments for the best players.

greenset merges with Padel Courts Deluxe, a leader in padel courts, to create greenset Padel, strengthening their position in both tennis and padel court markets.

2022

**Javier Sánchez Vicario
& Fernando Cánovas**
Co-CEO greenset

2024

We implemented cutting-edge robotic technology, revolutionizing court production and enhancing manufacturing efficiency.

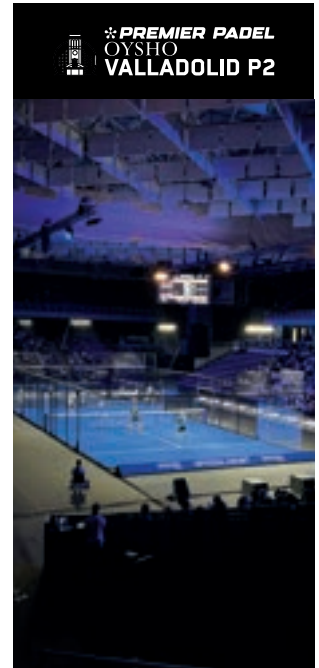

Present

Installed over 60,000 courts in more than 50 countries, serving top academies like Rafa Nadal Academy, national federations, and leading venues worldwide.

02 Tournaments & special events

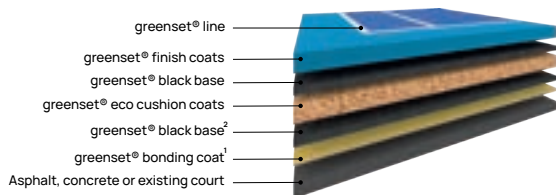

With over 50 years of experience our team of experts, client services, and state-of-the-art factories allowed us to build over 60,000 courts for the most reputable tournaments, academies and legendary players worldwide.

From the Australian Open and the Olympics to the Rafa Nadal Academy and Premiere Padel Tournaments, our surfaces are where champions train and compete. Our commitment to excellence and innovation ensures that every court we create not only meets but exceeds the expectations of elite athletes and prestigious institutions.

03 Tennis systems

GRAND SLAM ECO COURT

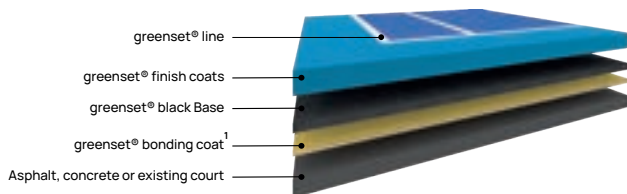

1 Only needed for concrete base or resurfacing

2 Only needed for new asphalt

The Grand Slam Eco Court mirrors the experience of professional players. Its innovative shock absorbency with sustainable cork offers a unique feel. Our newest, most eco-friendly system.

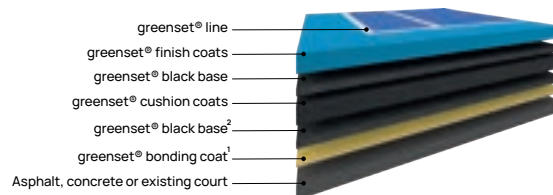

TOUR COURT

1 Only needed for concrete base or resurfacing

The Tour Court has helped young players worldwide to fulfill their dreams for over 50 years. Our best-selling surface is used in tennis academies, training centers and on the ATP and WTA tour. The perfect court for all skill levels.

GRAND SLAM COURT

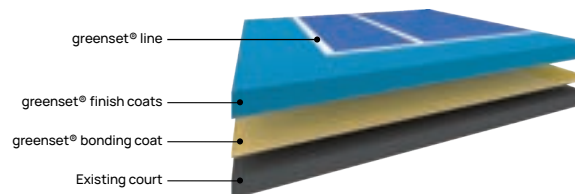

1 Only needed for concrete base or resurfacing

2 Only needed for new asphalt

The Grand Slam Court is the official surface of Australian Open. It is suitable for all kinds of players and game styles. Provides a high shock absorption and care for knee joints thanks to its layer of liquid rubber. It is the most used surface in elite private clubs and facilities. Play like a pro!

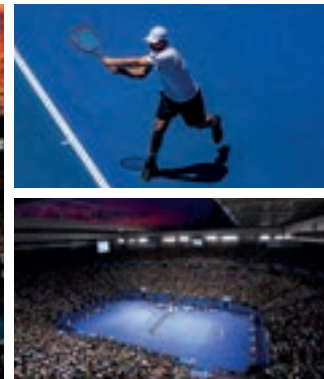

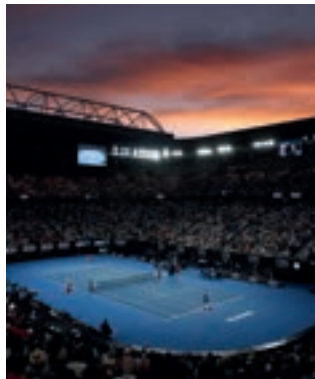

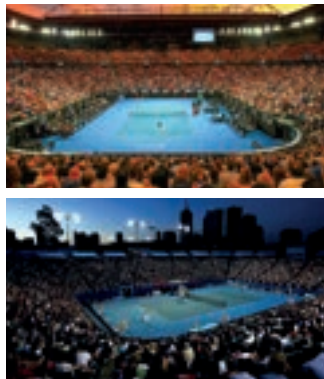

CLUB COURT

The Club Court is our version of the Tour court for reduced budgets. Mainly used for resurfacing of existing courts, this is our entry level court to experience greatness.

06 greenset tennis sustainability

greenset EcoCushion

greenset holds ISO 14001 for environmental management, ISO 9001 for quality standards, and ACTECO for sustainable waste management, ensuring eco-friendly practices, top performance, and a commitment to excellence in every project.

The EcoCushion court by greenset tennis offers top performance with an eco-friendly design. Certified with the Zero Footprint Certificate, it ensures sustainability while providing superior cushioning, player comfort, and reduced environmental impact.

ITF (International Tennis Federation) certificates are official recognitions that confirm a tennis court meets the highest international standards of quality, performance, and safety set by the ITF.

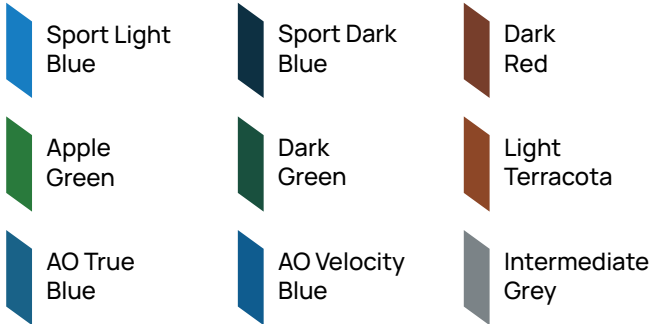

These certifications assess key factors such as surface pace, ball bounce consistency, durability, and overall playability. Courts are categorized into five pace classes, ranging from Category 1 (slow) to Category 5 (fast).

Having an ITF-certified court ensures suitability for official competitions and reflects a strong commitment to excellence in sports surface design and construction.

SPECIAL COLORS

Check delivery time

At greenset, our in-house production facilities allow us to offer fully personalized court colors, crafted on demand to meet each client's exact specifications. Whether you're aiming to reflect a brand identity, align with a facility's aesthetic, or create a one-of-a-kind visual impact, we turn your ideas into reality with precision and care.

From concept to execution, every color is meticulously developed to deliver not only striking design but also the highest standards of durability and performance. With greenset, your court becomes a true expression of your vision—unique, bold, and unmistakably yours. Crafted to perform, built to last, and designed to inspire greatness on every play.
